STAINLESS STEEL FREEZER & FRIDGE

- Essential equipment for any restaurant, cafe, or commercial kitchen.
- Best ideal to keep food fresh
- Most hygienic, save our food from gem

WHICH IS RIGHT FOR YOUR KITCHEN?

These questions to help determine which models and features you need to solve your problem.

- 1) What Space Do You Have Available?
- 2) What Size Or Capacity Do You Need?
- 3) Auto Defrost Or Manual Defrost?
- 4) What Is The Features You Need?
- 5) What Types of Refrigeration Can You Afford?

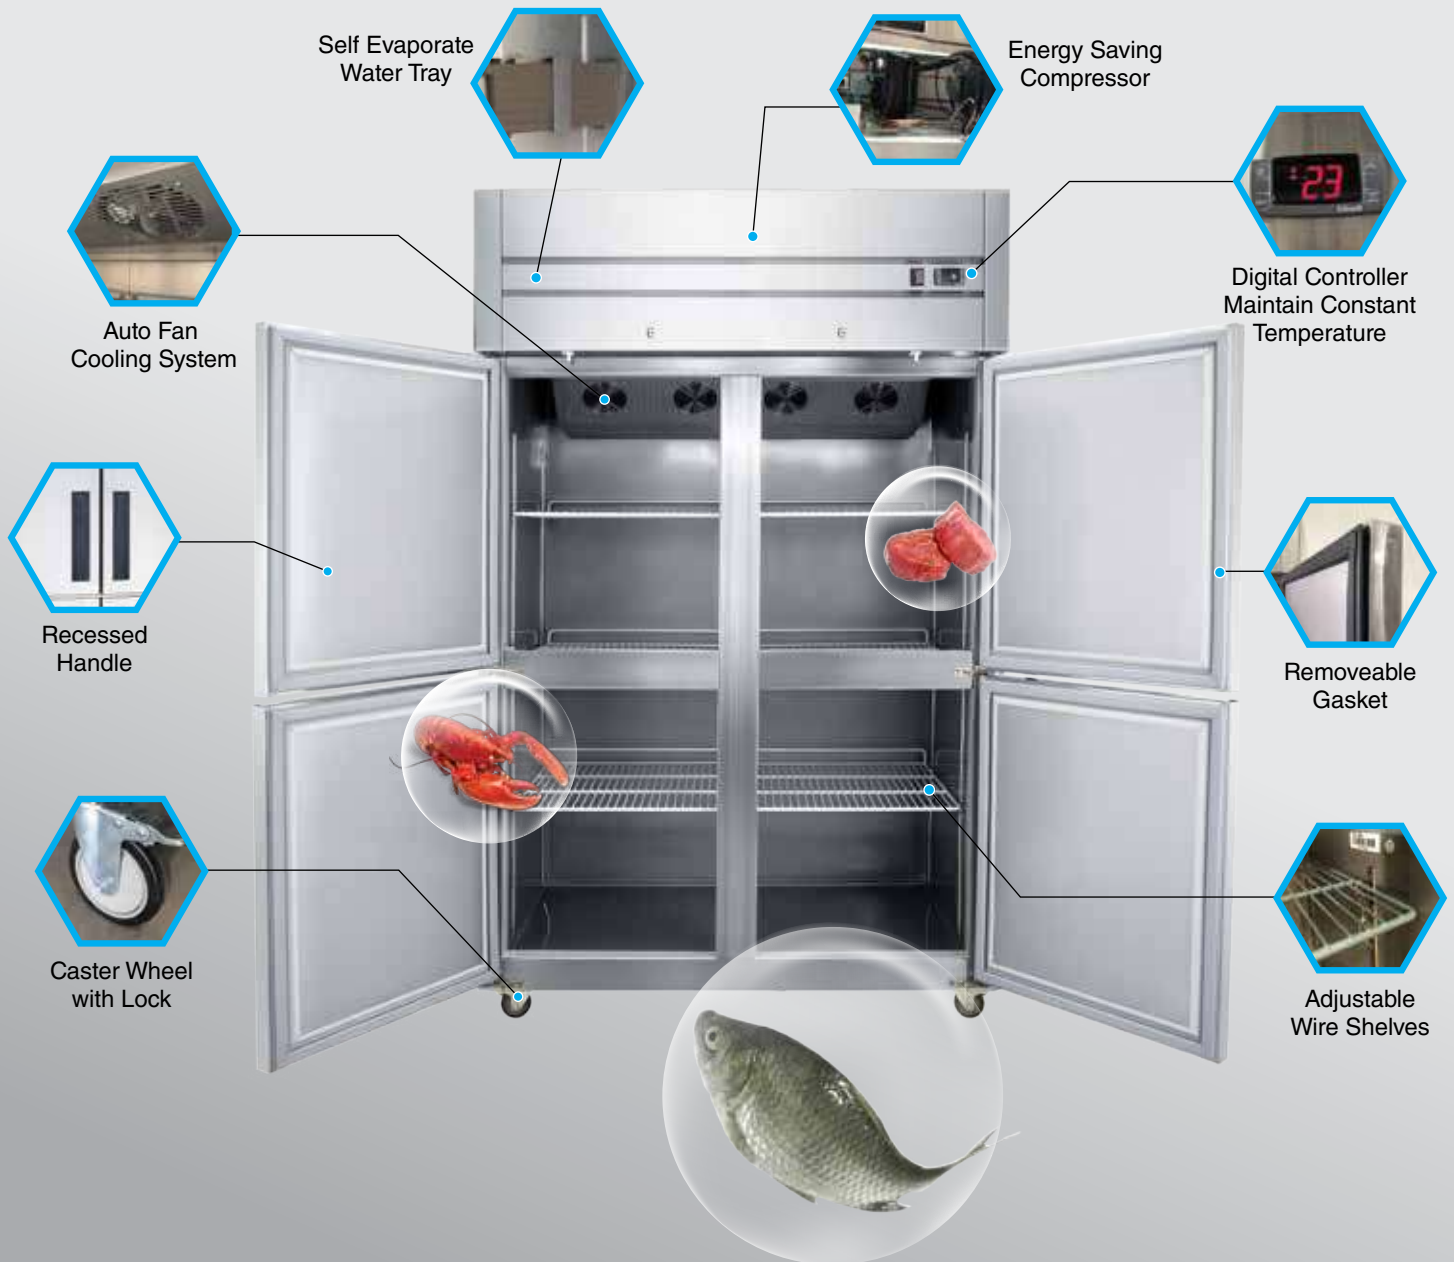

COMMERCIAL FREEZERS

Commercial freezer is designed to suit the needs of any business who needs optimal performance without sacrificing design. These freezers are designed to store large quantities of food, medical supplies, and other perishable goods. Stainless steel commercial freezer has the advantages of corrosion resistance, wear resistance, and easy cleaning.

COMMERCIAL FRIDGES

These commercial fridges are ideal for perishable foods: fruits and vegetables. In addition to it, one can use it to store dairy or cold beverages. With goods that need to be stored at the right temperature to maintain their quality, one must also ensure the best quality refrigerators. With resistance to dirt, and germs and easy maintenance, commercial stainless steel fridges are the perfect fit for all food businesses.

STAINLESS STEEL FREEZER

2 DOOR

4 DOOR

6 DOOR

FEATURES AND BENEFITS

With the help of total no frost technology, the freezer will provide a suitable condition which keeps food fresh longer. It save your time because the freezer will defrost automatically.

Which is a natural, non-toxic refrigerant and is environmentally friendly and energy efficient.

Interior and exterior stainless steel, it high resistance to corrosion. Sleek appearance easy to clean.

Digital temperature controller with temperature display ensures the temperature are clearly seen from the display panel.

To force air ventilation, to distribute the cold air inside and achieve an even temperature for each corner.

High performance compressor on top running on R290 refrigerant have electrical energy saving 30%.

Adjustable shelves for flexible storage to place various height item, ensuring safe and sturdy product storage.

Water evaporated by heating. Condensation water flow to the tank and will evaporate automatically.

Stainless steel is non porous, saving our food from germs. Stainless steel appliances are less likely to become breeding grounds for germ and bacteria.
